

RAVITEJA MUSKU

Aspiring Cybersecurity Analyst | Application Security Enthusiast
ravitejamusku198@gmail.com | +91 9491147482 | Hyderabad, Telangana

CAREER OBJECTIVE

Aspiring Cybersecurity Analyst with a full-stack development background, seeking a Fresher / Intern role in cybersecurity. Practical, hands-on understanding of authentication, role-based access control (RBAC), and application security gained by building and auditing production web applications. Quick learner, comfortable with Linux, networking fundamentals, and reading/writing code, and experienced using AI tools such as ChatGPT, Claude, and Gemini to accelerate secure code review, research, and documentation, looking to bring that foundation into a security team as a Security Analyst, SOC Analyst, or Application Security Intern.

RELEVANT TECHNICAL EXPERIENCE

Graduate Engineer Apprentice | Electronics Corporation of India Limited (ECIL)

Mar 2025 – Mar 2026 • Hyderabad

- Implemented secure user authentication and role-based access control (RBAC) to restrict data access by user role, reducing the risk of unauthorized data exposure.
- Configured and hardened the server environment (XAMPP) used to host an internal-facing web application.
- Optimized SQL queries and backend workflows while preserving data integrity across a multi-role system.
- Designed responsive, role-aware UI layouts that only surfaced data appropriate to the logged-in user's permissions.
- Collaborated with stakeholders through requirement gathering and testing cycles prior to production deployment.

SECURITY-RELEVANT PROJECTS

OWASP Security Self-Audit — Youth Management System (In Progress)

- Conducting a hands-on OWASP Top 10 security audit of a self-built production app (Next.js, NextAuth, Prisma, PostgreSQL) using OWASP ZAP / Burp Suite.
- Testing for broken access control, authentication flaws, and misconfiguration across the app's role-based (Admin/Member) system.
- Documenting each finding with severity, root cause, and applied fix in a public write-up — full report and before/after code diffs on GitHub.

People's Youth Management System | <https://www.youthmanagment.com/login>

- Implemented JWT-based authentication (NextAuth v4) with two distinct role types — Admin (full CRUD) and Member (read-only) — enforcing least-privilege access via separate dashboards.
- Built a controlled one-time OTP login flow: admin issues an OTP, member authenticates and is forced to set a new password on first login, preventing credential reuse.
- Managed database schema evolution via Prisma migrations on PostgreSQL, with access-controlled deployment via Vercel.

Student Information Management System

- Built a Python Tkinter + MySQL desktop application with secure login and session-based access to student records.
- Implemented biometric-style face recognition attendance verification using OpenCV, LBPH, and Haar Cascade to reduce identity spoofing at check-in.

TRAINING

Python Full Stack Development | Professional Training Program

2023 – 2024

- Completed intensive training covering Python, Django, REST APIs, React JS, and MySQL, with emphasis on backend logic and data handling.
- Practiced version control with Git and GitHub across all training projects.

TECHNICAL SKILLS

Security: OWASP Top 10, Access Control (RBAC), Authentication & Session Management, Vulnerability Testing (OWASP ZAP/Burp Suite), Linux Fundamentals, TCP/IP & DNS

AI Tools: ChatGPT (OpenAI), Claude (Anthropic), Gemini (Google)

Languages: Python, JavaScript, TypeScript, PHP, SQL

Frameworks & Libraries: Django, Django REST Framework, Next.js, React JS, Tailwind CSS, Tkinter, OpenCV

Web Technologies: HTML5, CSS3, REST APIs, NextAuth, Prisma ORM

Databases: PostgreSQL, MySQL, XAMPP

Tools & Platforms: Git, GitHub, Vercel, VS Code, VirtualBox (learning), Kali Linux (learning)

EDUCATION

B. Tech – Computer Science Engineering | Holy Mary Institute of Technology and Science *2020 – 2023 • Hyderabad*

Diploma – Electrical and Electronics Engineering | State Board of Technical Education, Telangana *2017 – 2020 • Hyderabad*

SOFT SKILLS

Problem Solving | Team Collaboration | Time Management | Adaptability | Communication | Agile Methodology | Continuous Learning
